

No Transference of HME License or Certificate of Registration Rule

Rule 4761:1-15-03 became effective on March 31, 2008. This rule states:

4761:1-15-03 Transfer of Authorization to new facility or new ownership.

(A) Licenses and certificate of registration are valid only for the facility location listed in the application and are not transferable to another facility location or new facility. Any holder of a license or certificate of registration that transfers HME operations to another facility location or a new facility shall apply for a separate license or certificate of registration. The board shall cancel the license or certificate of registration of any facility upon the written notification by the facility's authorized representative that the facility of record is no longer engaged in the conduct of HME services.

(B) If the facility for which a person holding a license or certificate of registration changes ownership, the new owner shall immediately notify the board in writing of the change. The new owner shall provide the date of ownership change, the name and title of the authorized representative and facility manager and the name of the facility, if either is different from information on record with the board. The board shall notify the appropriate accrediting organization for facilities holding a certificate of registration. If the facility name changes, the authorized representative shall request an updated license or certificate of registration identification card and certificate and shall pay the fee required by the board. The new owner shall be scheduled for an inspection that will be conducted within sixty days of the date of notification to the board of the change in facility ownership.
